CAT 10W Transmission Oil T04

CODE: KAEMJ12

Cat 10W Transmission Oil is a high quality mono-grade oil designed to meet the requirements of Caterpillar transmissions and drives. Cat 10W is formulated from solvent refined paraffinic base oils and high performance additives to provide excellent frictional characteristic together with high anti-wear and extreme pressure performance. Cat 10W is recommended for a wide range of lubrication applications, such as powershift and hydrostatic transmissions, final drives and hydraulic systems in vehicles where Caterpillar TO-4 and/or Allison C4 performance is specified.

FEATURES / BENEFITS

- Designed for Off-Highway Automatic and Non-Synchronised Manual Transmissions, Wet Brakes and Axles
- Formulated for Optimum Powershift Transmission Performance
- Balanced Frictional Characteristics for Minimal Brake Noise
- Good Anti-Wear Performance and Corrosion Protection
- High Resistance to Oxidation for Long Life Lubrication

PERFORMANCE / SPECIFICATIONS

- Caterpillar TO-4
- Allison C4

AVAILABILITY

① Values are typical of current production, and whilst future production will meet these specifications, some variation in typical data may occur.
